## City Hall News

Matthew Smith, City Manager

With the hot weather in full swing, and the Live Oak Pool opening on Memorial Day, I am certain you will agree that our municipal pool has never looked better. Recently, the clubhouse received a new roof that has completely changed its appearance and the façade of the pool complex. In addition, several upgrades were provided to the pool to enhance its function for the summer months.

The pump room has been completely renovated and a new controller unit will insure that the proper chemicals will enhance safety and clarity of pool water. The pump motor has been reconfigured to another location that will help its life expectancy, and the restrooms have received some improvements. Finally, new landscaping has been completed to improve the attractiveness not only for pool users, but for residents and guests who choose to rent the pool and club house facilities.

After the pool closes this season, plans have already been set in place to complete the upgrades to the pool and its surrounding area so that it will remain a destination for residents and visitors for years to come. The primary source for funding for these repairs have almost solely come from Economic Development proceeds to reduce the impact on the Live Oak residential tax payer. We hope that these repairs will make you proud to be a resident of Live Oak, and we encourage you to come by to see the work that is being done to improve your municipal pool.

## CHIEF'S CORNER

*By: Ron R. Echols, Chief of Police*

Now that spring has sprung and summer is upon us, more and more of us are getting outdoors and hitting the streets, so to speak. As I travel the streets of Live Oak, I see an increasing number of folks walking or jogging. Whether it is to shed a few extra pounds from the winter, alleviate a few of life's little stressors, attain some level of fitness, or perhaps a combination of all the above, as we evolve into our pedestrian state, we will undoubtedly encounter vehicles along the way. As a past street runner, the intent of my column this month is to share a few rules of the road and some safety tips when it comes to being a pedestrian in Live Oak.

Are you aware there is a little known law in Texas that requires a pedestrian to walk on a sidewalk if one is accessible? It is the truth! State law requires you take to the sidewalk, if there is one provided. Why? It is always a good idea to use the sidewalk when and wherever possible. Runners often have trouble with sidewalk running as roadways have a tendency to be smoother surfaces and better maintained than their footpath relatives. That being said, more often than not we will find ourselves on the surface of the road at some point in time or another.

We are all aware there are some areas of our community where there is no sidewalk. In those instances, the law provides for the use of the roadway by a pedestrian but stipulates that the person walk to the left side of the street or shoulder of the road facing oncoming traffic. Doing this will afford the walker or runner the opportunity to watch oncoming vehicle traffic and to take evasive action, if necessary.

In addition to the traffic safety information I mentioned previously, here are some personal safety tips to keep in mind when you are mobile:

Wear light colored clothing or reflective material if you must walk or run before dawn or after dark. Wearing light colored clothes not only helps to see you—it also reflects the heat and tends to keep you cooler while exercising.

1. Carry some form of identification with you at all times or write your name, phone number, and blood type on the inside sole of your walking or running shoes. It is a good idea to list an emergency contact in the unlikely event it will be needed.
2. Walk or run in familiar areas, if possible. Live Oak has very nice parks and park trail systems to meet a variety of walking and jogging pleasures.
3. Tailor your route away from unpopulated, deserted streets and overgrown trails. At night avoid unlit areas and steer clear of parked cars or bushes.
4. Tell someone, i.e. a family member or a friend, the route of your walk or run.
5. If you alter or vary your walking or running routine, be sure to let someone know. Leave a map of the route at home in a conspicuous place; if possible, detailing the route and time you embarked upon your journey.
6. Use your ears to be aware of your surroundings. Using headphones with I-pods or other type devices can be distracting. We want you to always stay alert and be aware of what's going on around you. The more aware you are, the less vulnerable you are to having an accident or being accosted—not that that it is going to happen.
7. Carry a cell phone. I said carry it—but limit casual use while taking to the streets. Cell phones can distract your attention when you need it the most. Do program the Live Oak Police Department (LOPD) communication phone number (653-0033) as one of your phone contacts for quick access and dialing. We are available 24 hours a day—weekend and holidays are no exception. We are here for you!

8. Trust your intuition. If your gut tells you to avoid a person, situation or an area – listen! If something is telling you the situation you are about to enter is not "right," it's probably not – turn around! If something is telling you the situation is seriously not "right" you should use the cell phone and call the LOPD (see #7) or dial 9-1-1 if the situation needs immediate attention or if it is of an emergency nature.
9. Ignore verbal harassment. Use discretion in acknowledging strangers. Look directly at others and be observant, but keep your distance and keep moving.
10. Carry a noisemaker (whistle) and/or device to draw attention to you, if necessary.
11. And as our parents would tell us...Look both ways before crossing the street! In most instances where pedestrians are struck by vehicles it is while they are attempting to cross the street. So, take the time and do not assume a driver of a vehicle can see you.

So you might be asking yourself, "What will the LOPD do if I do not use the sidewalk?" Well, simply said we encourage you to use the sidewalk to the best of your ability. With a little preplanning and adopting some of the safety tips into your foot travel through our great city, your journey will be a much safer one.

Happy trails!

## FEMA'S COMMUNITY RATING SYSTEM

### Northside Social Security Office

**Scott Wayman, Assistant City Manager**

The Federal Emergency Management Agency has provided the City of Live Oak with a plaque declaring its participation in the Community Rating System Program. After several months of study by FEMA, Live Oak enters the program as a Class 7 city. Our participation in this program took effect on May 1, 2010, and allows for residents who are required to purchase floodplain insurance to receive a 15% discount; while residents who are not in a flood hazard area can choose to purchase the insurance for a 5% discount.

To enter the program, Live Oak had to improve its record keeping, enhance its dissemination of flood related material, as well as, demonstrate that we manage our flood plains at levels higher than minimum standards. Live Oak has become the only City in South Central Texas, south of San Marcos, to receive the designation. If anyone has flood related questions or inquiries into the Community Rating System, please contact Scott Wayman at 653-9140 ext. 261.

## CPS TREE TRIMMING

*Scott Wayman, Assistant City Manager*

Many residents have contacted the City of Live Oak concerned about trees that are being trimmed by City Public Service crews. The Vegetation Management and Forestry section of CPS handles this function, and they have a company out trimming around several power lines in the Live Oak area. The lines that these

crews are mostly concerned about are the primary high voltage lines at the very top of the poles that service entire neighborhoods. The company completing the work are certified through OSHA to prune around these lines and are also certified through the International Society of Arboriculture to cut trees at pruning points to insure the health of the trees. If you have any questions regarding the tree trimming, please do not hesitate to contact CPS' Vegetation Management and Forestry Section at 210-353-3798.

- High voltage primary– City of Live Oak takes care of any limbs closer than 10 feet.
- Service drops (low voltage and coated wire) – City of Live Oak only trims for 3 feet of clearance.

## LIVE OAK POOL

Summer heat is on. Come on down to the pool and cool off! Pool hours are Tuesday through Sunday from 1:00 to 6:45 p.m. and closed on Mondays (except July 5th and September 6th).

On August 23rd, 2010, the schedule returns to weekends only. Parents please remember that an adult guardian must accompany children 10 years old and younger at all times while at the pool. Mark your calendar for great fun at the end of season pool party September 6th, Labor Day. Join us for one last hoorah at the pool with fun, games, music and refreshments. The regular admission of \$2 applies to this event with no additional fee for season pass holders.

## WATER AEROBICS

Water aerobics is available to senior citizens on Fridays from noon to 1:00 p.m. This is a great way to exercise without placing undue stress on your joints. All you need is your bathing suit, and we provide an entertaining workout!

If you have any questions or comments regarding the swimming pool or recreation activities, please contact Courtney Weese at 653-9140 ext. 235 or [cweese@liveoaktx.net](mailto:cweese@liveoaktx.net).

## REDUCE STORM WATER POLLUTION

Everyone can help to reduce pollution levels in our creeks and streams. Here is a tip that you can use for Lawn Care. Excess fertilizers and pesticides applied to lawns and gardens wash off and pollute streams. In addition, yard clippings and leaves can wash into storm drains and send nutrients and organic matter to streams.

1. Don't overwater your lawn. Consider using a soaker hose instead of a sprinkler.
2. Use pesticides and fertilizers sparingly. When use is necessary, use these chemicals in the recommended amounts. Use organic mulch or safer pest control methods whenever possible.
3. Compost or mulch yard waste. Do not leave it in the street or sweep it into storm drains or streams.

## CRITICAL WATER PERIOD WATER CONSERVATION

**Stage I:** The City of Live Oak follows the same rules of water use restrictions as San Antonio ([www.saws.org/conservation](http://www.saws.org/conservation)). Stage One Re-

strictions begin when the Edwards Aquifer level drops to 660 feet mean sea level at the monitored well.

- Water waste is prohibited at all times. Water waste includes allowing water to run off into a gutter, ditch, or drain; or failing to repair a controllable leak.

- You should reduce water consumption by any means available.
- All non-public swimming pools must have a minimum of 25 percent of the surface area covered with evaporation screens when not in use. Inflatable pool toys or floating decorations may be used.
- Hand watering with a hand-held hose, soaker hose, drip irrigation, bucket or watering can is permitted any time and any day.
- Washing impervious cover such as parking lots, driveways, streets or sidewalks is prohibited. Health and safety exceptions to this rule may be requested from the City of Live Oak in writing.
- Residential washing of vehicles or other equipment is allowed only on assigned watering days and times. A hose with an automatic shut-off nozzle or bucket of five gallons or less may be used. Water should not be allowed to run into the street.
- The use of commercial car wash facilities is allowed any day.
- Use of fountains, waterfalls, or other aesthetic water features — outdoors or indoors — is prohibited, unless a variance has been granted for 100 percent non-potable water use.
- Watering with an irrigation system or sprinkler is allowed only once a week before 10 a.m. or after 8 p.m. on your designated watering day as determined by your address:

Last digit of Address	Watering Day
0 or 1	Monday
2 or 3	Tuesday
4 or 5	Wednesday
6 or 7	Thursday
8 or 9	Friday
No watering on weekends	

Stage I restrictions continue until there is an announcement in the newspaper that Stage I has been canceled or that Stage II is in effect. (continued on page 6)

**Stage II:** Stage Two Restrictions begin when the Edwards Aquifer level drops to 650 feet mean sea level at the monitored well.

- Follow all restrictions from Stage I unless added to or replaced by Stage II rules.
- Landscape watering with an irrigation system, sprinkler or soaker hose is allowed only once a week from 3-8 a.m. and 8-10 p.m. on your designated watering day, as determined by your address.
- Watering with a drip irrigation or 5-gallon bucket is permitted any day, but only between 3-8 a.m. and 8-10 p.m.
- Watering with a hand-held hose is allowed any time on any day.
- Use of fountains, waterfalls, or other aesthetic water features — outdoors or indoors — is prohibited, unless a variance has been granted for 100 percent non-potable water use.
- All non-public swimming pools must have a minimum of 25 percent of the surface area covered with evaporation screens when not in use. Inflatable pool toys or floating decorations may be used for this purpose.
- Washing impervious cover such as parking lots, driveways, streets or sidewalks is prohibited. Health and safety exceptions to this rule may be requested from the City of Live Oak in writing.
- Residential washing of vehicles or other equipment is allowed only on assigned watering days and times. A hose with an automatic shut-off nozzle or bucket of five gallons or less may be used. Water should not be allowed to run into the street.
- The use of commercial car wash facilities is allowed any day.
- Hotels, motels and other lodging must offer and clearly notify guests of a "linen/towel change on request only" program.

*Stage II restrictions continue until there is an announcement in the newspaper that Stage II has been canceled or that Stage III is in effect.*

## ECONOMIC & COMMUNITY DEVELOPMENT

Carol Buttler

### GETTING TO KNOW OUR BUSINESS COMMUNITY

#### Meet: Biff Buzby's Burgers

12702 Toepperwein Road  
Live Oak, Texas 78233  
Takeout 210-590-2040  
Fax 210-590-2008  
[www.biffbuzbys.com](http://www.biffbuzbys.com)

Tucked in the corner of Oak Grove Square is Biff Buzby's Burgers, one of those "cool" neighborhood dine-in restaurants with a varied menu and a friendly atmosphere. Donna Humphreys, owner/operator, loves to interact with her customers. Every so often she grabs the microphone and wishes a happy birthday to one of the guests, announces upcoming events, or gets the crowd's attention for the latest attempt to finish the "Red Baron" burger.

Who is Biff Buzby? Is he fact, fiction, or legend? Well, he was an imaginary friend created by Donna's husband in his youth, who conspired with him to "spin" elaborate "yarns" about being an adventurous pilot. Customers have continued the tradition writing stories about Biff Buzby; some convinced he is a true character. These stories line the wall from the entrance to the order counter. Since her husband's love of war movies inspired Biff, Donna decided to decorate the restaurant with the fighter pilot theme. Much of the décor has been donated by customers who had memorabilia they wanted to share.

When asked how Biff Buzby's as a restaurant began, Donna tells of being a Hill Country gal who met her husband in Houston when he was working in commercial real estate. They purchased the property known as Oak Grove Square. Since she had experience as a food broker, her husband said she should open a food business. She researched the best type menu to offer, which indicated hamburgers are the #1 favorite of cus-

tomers. It took 8 months to refurbish the current location which had been extensively damaged from a fire. June 19, 2010, Biff Buzby's just celebrated their 11th anniversary of operations.

Business grew by word of mouth and the menu evolved through customers dictating the type of variety they wanted. The complimentary beans to accompany each dish were a tradition from her parents. The 3-lb. "Red Baron" burger, suggested by the staff, has been tried by 15 people. A young man has the fastest finish time with 11 minutes, a female customer finished in 1 hour and 20 minutes, and the longest finish time is 1 hour and 40 minutes by a male customer. Prizes of a photo on the wall with the finish time and a Cruisin' T-shirt add to the fun. The Cruisin' Friday car shows that run March through November was the idea of a customer.

Donna says the highlight of Biff's is her employees. She has 12 employees who are local. Over half have been with her at least one

year and three managers have been with her at least five years. She appreciates having such a great staff to keep the customers returning.

Instead of thinking the only option is driving through one of the many fast food chains, "fly" to Biff Buzby's Burgers for a unique décor; nostalgic music; friendly service; and good food—hamburger patties, fried pickles, bombers (beer battered jalapenos with 2 cheeses and bacon) prepared on site and buns from the bakery. For the youngsters check the Little Biffer menu with the interpretation of a younger Biff Buzby. Open extended hours for the summer—Monday thru Thursday, 11 AM to 9 PM; Cruisin' Friday 'til 10 PM; Saturday, 11 AM to 10 PM. Military personnel receive a 10% discount.

#### Meet: South Texas Women's Business Center (STWBC)

100 W. Houston Street, Suite 1900  
San Antonio, Texas 78205  
210-207-0112  
[www.stwbc.com](http://www.stwbc.com)

For those of you who would like to become an entrepreneur and start a business but are unsure of the process, South Texas Women's Business Center can offer assistance.

For the past four years, the South Texas Women's Business Center has provided services to aspiring and established entrepreneurs in their business ventures. The Center provides business plan and marketing plan classes, provides consultation on business development, brings experts in fields to share information with business owners, and more. Visit the Center online at [www.stwbc.com](http://www.stwbc.com) or call 210-207-0112.

South Texas Business Fund has been an integral part of business lending as a microlender, a 504 SBA loan provider, and other loan products for over twenty years in the Greater San Antonio region. STBF is the City of San Antonio's non-profit lending arm. Visit them online at [www.stbfund.com](http://www.stbfund.com) or call 210-207-3932. Dedicated to business needs, the Fund created the South Texas Women's Business Center, which also is funded partially by The Small Business Administration.

The City hopes you will take time to visit the web site and consult with this resource, which focuses on supporting our economic engine -- small businesses.

### GET TO KNOW GRASP

#### Meet: Greater Randolph Area Services Program, Inc. (GRASP)

250 Donalan  
Converse, Texas 78205  
210-658-6351  
[www.grasp211.org](http://www.grasp211.org)

The Greater Randolph Area Services Program, Inc. (GRASP) is a human service organization established in 1983 and helps economically disadvantaged individuals, families and children. GRASP programs offer emergency assistance to those experiencing a household crisis and who live in areas of Bexar County in communities where access to help is limited. Qualified households may receive emergency assistance for rent, utilities, food, and medicine.

The GRASP Thrift Shop provides clothing and house wares to needy families who experience a catastrophe such as fire, flood, or

other loss. The agency provides emergency financial assistance, food pantry, senior transportation, daily activities and nutritious meals at the GRASP Community Center in Converse. Their Community Center is located at 250 Donalan in Converse, TX and their phone number is 210-658-6351.

### NEISD ANNOUNCES NEW BELL SCHEDULE FOR 2010-2011

North East ISD has modified start and end times for several campuses in an effort to increase the instructional time and allow for more efficient student transportation schedules. The new schedule is as follows. For additional information, please contact your home campus.

#### Elementary Schools

7:30 AM – 2:30 PM: Cibolo Green, Dellview, Larkspur, Northwood, Ridgeview, Stahl, West Ave, Wetmore

8 AM – 3 PM: Colonial Hills, Harmony Hills, Jackson-Keller, Longs Creek, Oak Grove, Oak Meadow, Redland Oaks, Regency Place, Serna, Thousand Oaks, Woodstone

7:40 AM – 2:40 PM: All other elementary schools

#### All Middle Schools

8:20 AM - 3:25 PM

#### All High Schools

8:45 AM - 4:05 PM

### OFFICE OF EMERGENCY MANAGEMENT

Gary Woppert

### EVACUATIONS

In the event of a serious emergency, such as a hazardous material spill along the interstate, there is the possibility that citizens may have to evacuate their homes on very short notice. While this is remote it could happen and citizens need to be prepared just in case. There are actually two forms of evacuation. Voluntary and Mandatory! In the event of a serious incident, citizens may be advised to leave their homes as a precautionary measure or may also be asked to shelter in place. In voluntary evacuation citizens will be encouraged to leave as conditions may make it difficult to remain. Some utilities may be off or there could be a foul smelling substance in the air that may not be dangerous, but it could affect someone with respiratory problems. In these situation citizens within an area may be asked to leave or shelter in place. Basically stay indoors and seal up your home by closing windows, turning off the air-conditioner, etc. In this case citizens have a choice.

In the event of a serious emergency, citizens may be ordered to evacuate their homes. The State of Texas does have a mandatory evacuation law that may be imposed by the Mayor as the Director of Emergency Management. Once ordered it requires everyone within the evacuation area to leave. Needless to say this order raises some questions! Depending on the size of the area, it will be extremely difficult to actually enforce this order, especially if time is critical, such as in the event of a chemical spill. Law enforcement will do their best. However, going door to door probably will not be possible.

If an evacuation is needed all the warning systems available to us will be used including door to door notification if possible. Citizens will be provided specific instructions on the circumstances,

the evacuation area using street boundaries, and where to go for shelter.

If this should ever occur, ALL citizens are asked to cooperate and comply with an evacuation order for your own safety. This order will never be issued, unless it is necessary and failure to evacuate could place you and your family in grave danger. If you remain in the area, emergency personnel may not be able to re-enter the evacuation zone to assist you if hazardous conditions are present.

For additional information visit, the Emergency Management Section of the City Web Site or contact Gary Woppert, the Emergency Management Coordinator, at 653-9140, ext. 379, via e-mail at gwoppert@liveoaktx.net, stop by the office in the fire station during normal business hours.

### EMERGENCY OPERATIONS

In the Emergency Management section of the new City Web Site there is a tab on the left hand side that reads "Emergency Operations." In the event there is an emergency situation on-going in the City of Live Oak or nearby that may affect the city, the Office of Emergency Management will attempt to post information in this area as quickly as possible. It may include the status of the incident, evacuation and shelter issues, along with other useful information. This information may be extremely useful for citizens who are away from their home or those who have evacuated and have access to a computer, whereby they can check the site on a regular basis for updates.

## LIVE OAK FIRE DEPARTMENT

*Gerry Galindo, Assistant Fire Chief*

The Live Oak Fire Department would like to thank all of the readers of the Northeast Herald Newspaper for voting the Live Oak Fire Department as the best of the best for 2010. The members of the Live Oak Fire Department sincerely appreciated your vote and are greatly honored to receive such an award.

The Live Oak Fire Department would like to invite you to visit the City's new web site at [www.liveoaktx.net](http://www.liveoaktx.net) and then click on the Fire Department page. On this page, you can keep up with all of the News and Events and read the latest Newsletter information. You can also provide your comments to any items by clicking on the staff roster and linking to the e-mail address of whom you wish to advise.

The Live Oak Fire Department recently completed a very busy but successful month in May. We attended a parade in Kirby for their HOBO Fest while providing a Child Safety Day at the Civic Center Parking Lot on the same day. We participated in a very successful EMS Extravaganza at the Forum Shopping Center with Schertz EMS, as well as, other local fire departments and ended the month with a parade in our own City for Memorial Day.

Other than that, we are staying busy providing you with the top quality emergency service you have come to expect.

“I want to thank you for all your assistance in giving me the goal of affordable solar power, which I thought after speaking to other companies was out of my price range. Words that come to mind when I think of this complete installation; professional, honest, trustworthy, and your high knowledge within solar power were of great benefit to me. Again thank you and your professional employees who did a wonderful job.”
