Minute with the *Mayor*

Dear Citizens of Live Oak,

It is hard to believe that 2012 is almost over and I am very excited about many things on the horizon for 2013. I'd like to be one of the first to wish you "Happy Holidays" for the rapidly approaching season. It is a time when we all get together and enjoy family and friends and share in the spirit of kindness. With so many things that we have to be thankful for, it is easy to recognize the blessings that surround us each day.

During this season, let us also remember the sacrifices being made by our soldiers and their families. As always, I am available to talk to any citizen or to receive concerns and suggestions. To reach me you can call my cell phone at, or my email at yourmayormary@yahoo.com.

Mayor Mary M. Dennis

From the Finance Department

Kathy Schobinger

Purchasing/Budget Coordinator

With the holiday season almost upon us again, children everywhere are daydreaming about the latest gadget while their parents are having nightmares about how to pay for them.

In these economic times, it's perfectly understandable to be a little concerned this holiday season. After all, food on the table and gas in the car will go a lot further than the latest video game.

But here's the dilemma: We all want our loved ones' faces to light up as they open that perfect gift. We want to make those nearest to us happy, but we also must remember our neighbors and our local businesses.

Think about staying in town to do some of your holiday shopping. You may not get everything in Live Oak, but there are plenty of gifts to be found right here. Our city is full of locations with every trinket you could imagine.

The great thing about buying local is that the proceeds stay in Live Oak. The more business local establishments get, the more they have to further invest in the business, and therefore better serve the customers.

Think Local - Buy Local - Be Local!

Keep our community unique: Where we shop, where we eat and have fun—all of it makes our community home. Our businesses are an integral part of the distinctive character of this place.

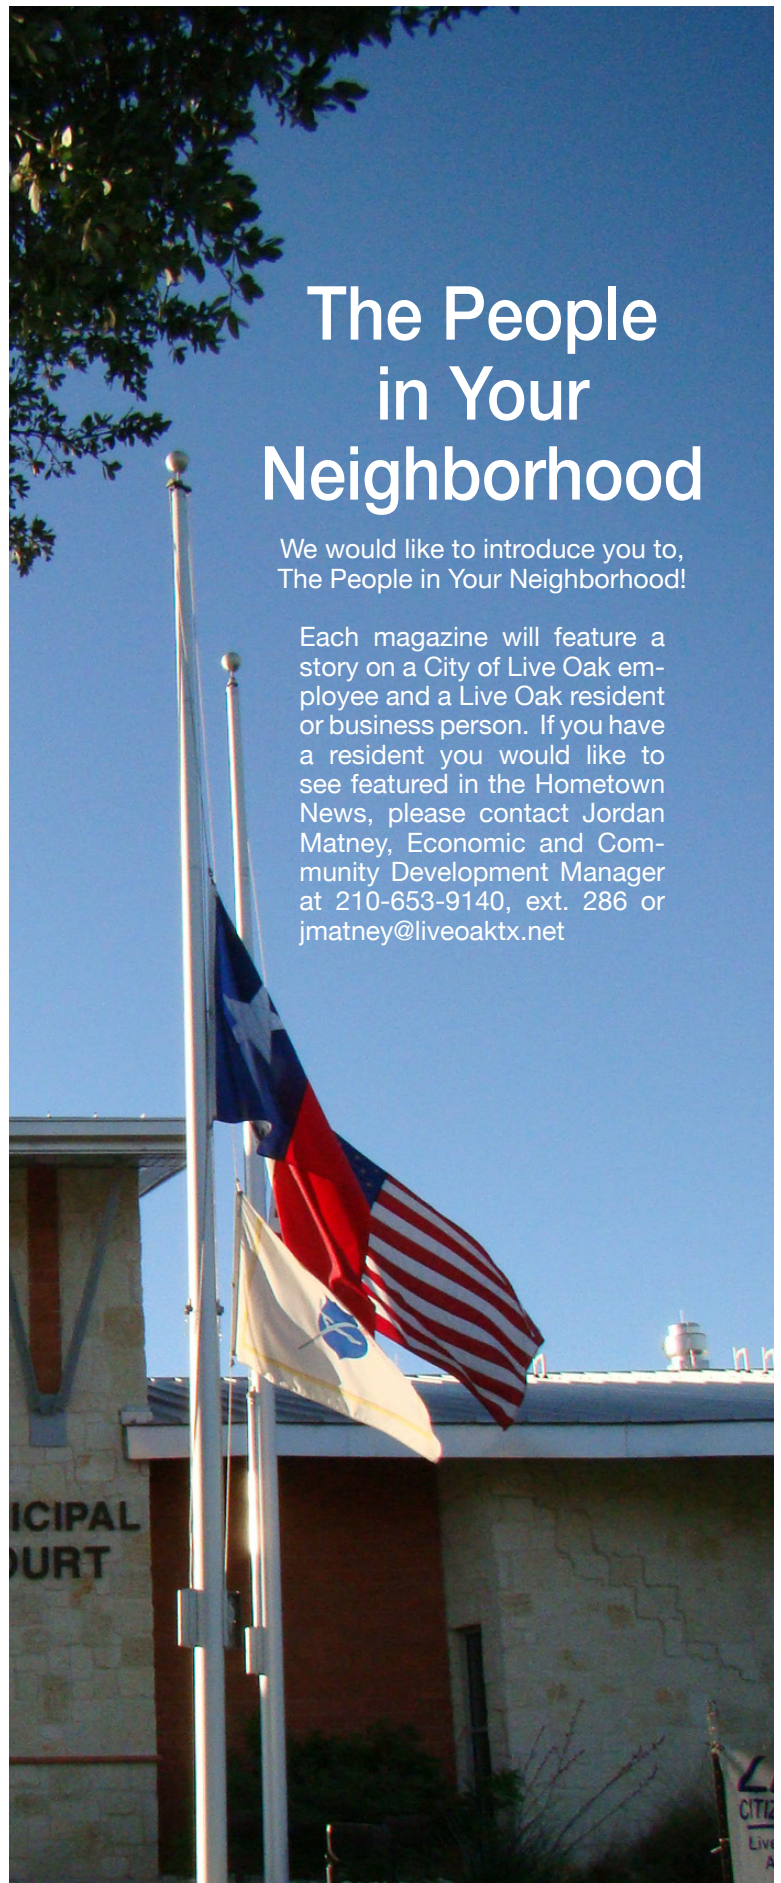

Don't forget about those in need this holiday season. Donate clothes and household goods to local churches and Goodwill here in Live Oak; offer some canned goods to the Fire Department Holiday Food Basket Campaign or contact the Police Department and find out more about the Blue Santa effort.

Help others this holiday season and it just may be your best one yet.

Loren Kuhlmann, Fire Captain

Loren has been employed by the City of Live Oak for 19 years and has a vast resume of fire experience with other cities as well. He is currently the Fire Captain and works the A Shift where he serves not only as a Fire Fighter/EMT Intermediate but also as the Incident Commander directing the Command Truck.

Kuhlmann was born and raised in San Antonio, attended Clemens High School (but we will forgive him for that) and he and his wife now reside in Universal City with their young daughter. He is also a proud parent to a grown son who is a graduate of Wayland Baptist University. In his spare time he enjoys riding his Harley Davidson motorcycle and hunting.

Of his most memorable moments serving the City of Live Oak, Loren recalls the High Key Apartment fire that erupted during 40 mile per hour winds. Many people thought the fire would rage out of control, but the Live Oak Fire Department stopped the blaze with only

one unit damaged. His favorite part of working in Live Oak is helping the community, saving lives and homes.

If you happen to see Loren in the community, make sure you say "Hi" and thank him for a job well done.

Shari Conley, Owner of Elegant Looks Salon

Shari Conley recently celebrated her one year anniversary of business in Live Oak. Shari and her husband purchased a previously owned salon in Live Oak in September of 2011 and have transformed the space to the new Elegant Looks Salon. Shari brings her 30 years of salon experience to Live Oak at 12315 Judson Rd, Suite 310 in the Village Shopping Center.

Nestled in the center that features other local favorites like Groomingdale's Pet Salon and The Village Florist, Shari and her other stylist Angie provide customers of all ages, male and female with a full menu of hair care needs. Services include haircuts, treatments, color services, perms, waxing and special occasion styles. In addition, the

salon features a beautiful full service makeup styling bar for special events. Shari and Angie can provide hair and makeup for bridal parties, proms, homecoming or any special events.

Shari is originally from Maryland but relocated to the San Antonio area four years ago after marrying her husband, Eric Conley, who is retired from the Army. They have six children between them, three boys and three girls! All but two of the children are grown with three proudly serving in the military; two in the Army and one in the Air Force. Shari says she is blessed to get to "play beauty shop" all day every day, which is every little girl's dream.

Remember to support your local businesses and shop Live Oak. Give Shari a visit at Elegant Looks Salon, 12315 Judson Road, Suite 310. You can also reach the salon at 210-653-4145 or follow them on Facebook. Specials include a 10% discount for military personnel and senior citizens.

In the Spotlight

Live Oak has had its share of famous visitors. Recently, we posted an autographed picture of the late Sherman Hemsley who visited the grand opening of a cleaners in town, NFL Hall of Famer Sonny Jorgenson visited the Halftime Lounge for their grand opening and some of the really old timers can tell you that both Jimmy Dean and William Boyd of TV's Hopalong Cassidy fame spent time at Boysville entertaining the children when it was located in Live Oak. However, we never seem to hear about local folks who grew up in Live Oak and have gone on to become celebrities in their own chosen career fields. This article is dedicated to three former Live Oak residents who have left their roots firmly in the ground here but moved on to achieve celebrity status.

Kelly Morton spent his entire childhood in Live Oak. Anyone who has historically visited the Dairy Queen on Village Oak knows Kelly's mother Jackie, who worked there for many, many years. Kelly's non-assuming personality would leave an acquaintance with no idea of his employment. What you wouldn't guess, is that Kelly is a professional comedian, performing in places all over the United States, alongside of such comedy greats as Bill Maher and Dane Cook. Currently living in California, but still proud to call Live Oak home, Kelly is a well-seasoned comedy writer who uses high energy and quick wit to entertain crowds with his "say anything" humor.

In addition to his comedy performances, Kelly owns a businesses called "That's the Spirit" that provides TABC training to bar and wait staff throughout the San Antonio region. He is also on the cusp of an off-shoot company called "Breathe Dummy" that will provide lifesaving CPR training, without the typical boredom of most Red Cross classes. Much to our surprise, Kelly recently attended a City Council meeting where he, among other things, confessed to childhood transgressions, praised the City for its progress and offered his own ideas on suggested city slogans, not one of which I feel comfortable printing in this article, but all funny in their own way.

Look for Kelly at either the Laugh Out Loud or the Rivercenter Comedy Clubs, right here in San Antonio. Interestingly, both of those venues are currently owned by the Barshop family. For many years, Sam Barshop owned significant

portions of property in what is now the City of Live Oak. Mr. Barshop is somewhat of a historical celebrity for the San Antonio region and has contributed significantly to the University of the Incarnate Word and other institutions in San Antonio.

Kelly Morton will be performing here in San Antonio at the River Center Comedy Club November 14-18th.

Painting is something that **Erik Parker** always knew he had a talent for. Born in Germany, his family moved to Live Oak when he was young. Growing up on Leading Oaks, he attended Judson High School and later San Antonio College that had a significant influence on him. Later he attended the University of Texas with a degree in fine arts. He also received a graduate degree from Purchase College in New York with a Master's Degree in fine arts. He currently lives in New York City where he continues painting and contributing to the arts. Parker's paintings have been described as "sly humor of satirical cartoons." They provide brightly colored vistas of worlds with flowers, non-geometric shapes and aloof appearing characters in their own artistry. He has had two gallery showings

at Paul Kasmin's Gallery on 10th Avenue in New York City. The first entitled a "Colorful Resistance" is a compilation of Erik's lifelong works. The most recent however is entitled "Bye Bye Babylon" and recently opened on September 6th, 2012, running through October 13th, 2012. The "Bye Bye Babylon" show includes paintings with the artists own interpretation on beaches and their accoutrements of surreal visualizations. Erik draws his inspiration from the landscape drawings of French painter Henri Rousseau, and Joseph Yoakum, an African American artist of Native American descent who drew unique landscapes with an individual style. You should not be surprised in Parker's works to see snaking vines, colorful, claw-like leaves and images that that reveal vivid beaches with sprawling mountains in the foreground. The best description of Parker's work opines that it is "seductive and eerie; visually sensible but also askew." His work has also been displayed at Fort Worth Modern Museum in Texas; Colette in Paris, France; Honor Fraser in Los Angeles, California; and also participated in shows around the world.

Belle Foster was born in Elsa, Texas, and became an Air Force wife when she married Kenneth Foster in 1958. She followed him to Europe and started formally studying art in Verona, Italy in 1961. She received an art degree from the University of Munich in 1971. She painted for many years in Europe and in 1975 she and her husband bought a house on Northledge Drive where she lived for 30 years. She has paintings that are currently owned by the late Presidents Lyndon Johnson and displayed in the LBJ Presidential Museum, former Presidents Richard Nixon and later, both George H. H. and George W. Bush. She painted under the name of "His Kingdom Art" and most of her artistry are prophetic reflections that she feels inspires her works. Her paintings range from an artistic view of the cross, depicted with flowers, to grandiose portraits of Christ engaging in biblically significant events. One of her most famous pieces, "His Kingdom at Hand" was unveiled at the Pentagon in 1974 and was on display at the Staten Island Military Museum in New York City for 21 years. This piece now is displayed at the World of Pentecost Church in San Antonio. Closer to home, Belle has a mural entitled "Christ Calming Storm" that for years has been in the possession of the Living Way Church, right here in the City of Live Oak. Belle moved to Bulverde to live with her daughter several years ago, but has maintained a homestead in Live Oak for members of her family.

This is just a thin slice of residents from Live Oak who have gone on to achieve great things in their chosen profession. For additional information on any of these individuals, please don't hesitate to surf the web or ask around to some of your neighbors. Future celebrities could be living right next door.

Holiday Food Drive

Nov 1 – Dec 7

Live Oak
Fire Department

Please help us make this year's Holiday Food Drive a great success by donating non-perishable food items at the Fire Department during regular business hours.

The food will be delivered to Live Oak families in time for the holiday season.

Winter Holiday Safety

Winter holidays are a time for families and friends to get together. But that also means a greater risk for fire. Following a few simple tips will ensure a happy and fire-safe holiday season.

HOLIDAY DECORATING

- Be careful with holiday decorations. Choose decorations that are flame resistant or flame retardant.
- Keep lit candles away from decorations and other things that can burn.
- Some lights are only for indoor or outdoor use, but not both.
- Replace any string of lights with worn or broken cords or loose bulb connections. Connect no more than three strands of mini light sets and a maximum of 50 bulbs for screw-in bulbs. Read manufacturer's instructions for number of LED strands to connect.
- Use clips, not nails, to hang lights so the cords do not get damaged.
- Keep decorations away from windows and doors.

HOLIDAY ENTERTAINING

- Test your smoke alarms and tell guests about your home fire escape plan.
- Keep children and pets away from lit candles.
- Keep matches and lighters up high in a locked cabinet.
- Stay in the kitchen when cooking on the stovetop.
- Ask smokers to smoke outside. Remind smokers to keep their smoking materials with them so young children do not touch them.
- Provide large, deep ashtrays for smokers. Wet cigarette butts with water before discarding.

Your Source for SAFETY Information

Must Do

Blow out lit candles when you leave the room or go to bed. **Turn off** all light strings and decorations before leaving home or going to bed.

FACTS

- ⚠ **Holiday decoration fires** are most likely to happen in the living room, family room or den.
- ⚠ **Almost half** of all home decoration fires are started by candles.
- ⚠ **Half** of holiday decoration fires happen because decorations are placed too close to a heat source.

From the Office of Emergency Management

By Gary L. Woppert, Emergency Manager

Cellular Telephone Alerts

The federal government is in the process of updating the nations' emergency warning system replacing the current Emergency Alert System with the Integrated Public Alert and Warning System (IPAWS). In April of 2012 the latest technology was rolled out by FEMA with the Commercial Mobile Alerting System (CMAS). Text messages known as Wireless Emergency Alerts (WEA)

can now be sent to cellular phones across the nation. These messages are broadcast by the cellular towers to all phones within the area of an emergency. Messages will include presidential alerts, Amber Alerts, and imminent life-threatening situations. The alerts will come with a distinctive tone and a short text message. There is no cost involved and do not count against plan minutes.

These messages can be issued by all levels of government following strict standards set by FEMA. That's the good news, however! Read on.

At the present time some citizens probably have received one of these messages provided you own one of the latest high tech cellular phones on the market. It is anticipated that it will take anywhere from 12 to 18 months or longer for all cel-

lular phones in use to have the technology to receive these messages.

For additional information on this program citizens are encouraged to visit the FEMA web site at www.fema.gov and look for information on IPAWS. You can also contact Gary Woppert, the Emergency Manager at 653-9140, Extension 379 for additional information.

September Town Hall Meetings on Preparedness

The "Town Hall" meetings on Family Preparedness held on September 12th and 13th, 2012, were somewhat successful. A total of 15 people attended the two sessions and learned about the potential hazards along with the basics of developing a "Family Disaster Plan" and the supplies everyone should have on hand.

Connect CTY Telephone Alert System

All citizens – Have you signed up for the Connect CTY telephone alert system? All residents with a listed telephone numbers should already be included, however if you have an unlisted telephone number you are not included. In addition we highly encourage you to add cellular numbers and text messaging to the system. In the event of a serious emergency this may be the only way the City can provide lifesaving information to you. If the power is out and if telephone lines are down, many citizens will not

be able to receive any messages regarding the emergency unless your cellular numbers are listed in our system. To add numbers simply go to the city web site. Under City Services - click on Connect CTY for a direct portal to the system along with some additional information on it. Just follow the simple instructions. As a reminder there are NO individual costs for this service. For additional information contact Gary Woppert the Emergency Manager @ 210.653.9140 ext. 379.

BEFORE

AFTER

The Duchess of Live Oak

One week as we were taking pictures of animals available for adoption at the Live Oak Animal Care and Control facility, we stumbled upon a wiry, unfortunate looking little pup that looked uncomfortable in her own skin. The little pup looked almost embarrassed of her appearance and her surroundings. She screamed to us, "I'm better than this!" Her appearance was so bad, that we commented on Facebook that "She had no recol-

lection of the events that led to her incarceration at this facility." We decided to take action and allow this pup to live the life she was meant to have, to return her to the lifestyle she deserved.

Working with local business owner Elisha Rogers of Groomingdale's Pet Salon, the newly dubbed "Duchess" was restored back to the beauty she was meant to be. Groomingdale's Pet Sa-

lon, located at 12315 Judson Road in the Village Shopping Center across from Northeast Methodist Hospital donated their time and services to give Duchess the royal treatment. When she was picked up for her private escort back to the Animal Care and Control Facility, she was greeted by a Live Oak resident who immediately fell in love with her highness. Duchess was adopted that very afternoon and is living a life of comfort and ease in her

Common Holiday Dangers for Your Pets

Bones: Ingestion of turkey, chicken and ham bones can cause significant damage to the gastrointestinal tract by causing obstructions, tears, punctures, gastric inflammation, vomiting, diarrhea and death.

Chocolate: Chocolate (especially dark) contains a substance called theobromine that is toxic and possibly fatal to animals.

Vegetables: Onions and garlic contain sulfides that cause the destruction of red blood cells. Avocado leaves, fruit, seeds and bark contain a substance called Persin that can cause a multitude of problems and be dangerous to your pet. Mushrooms contain a variety of toxins depending on the species and can cause kidney and liver failure, central nervous system, seizures, coma, vomiting, diarrhea, cardiac arrhythmias and death.

Fruits and nuts: Grapes and raisins, both seeded and seedless, can cause kidney failure in pets. Walnuts and macadamia nuts can cause pancreatitis in pets that result in prolific vomiting, diarrhea, gas and abdominal pain.

Meats, gravy and sauces: These are often too rich for their digestive system and can lead to vomiting, diarrhea, gas, pancreatitis, abdominal pain, lethargy and dehydration.

Holiday Tips to Keep Pets Safe

Confine your pet/Kitchen off limits: When guests come over confine your pet so there's no temptation to sneak them a little treat. Pets will consume anything you drop in the kitchen faster than you think and may easily be left unnoticed by you, but not by your pet.

Monitor your pet's behavior: Keep a close eye on your pet. Successful treatment of poisons and toxins often depends upon quick action. In an emergency, seek veterinary help immediately or contact (ASPCA) Animal Poison Control Center at 1-888-426-4435. They are open 24 hours a day, 365 days a year and are staffed by veterinary toxicologists that can provide rapid information about toxins and poisons.

LIVE OAK CHIROPRACTOR GETS RADICAL..."

Dear friends,
It was early last Thursday.

It just got to me. After seeing the ninth person that day that had been on heavy drugs for headaches, I said to myself, "This is absolutely crazy."

What's so crazy is that few people know that chiropractic may help them. They end up taking one serious drug after another trying to "cover up" the symptoms. Sooner or later, those drugs can lose their effectiveness, and can even cause 'rebound' headaches themselves.

There is a massive propaganda machine out there telling people that the answer to all their health problems is drugs. I don't believe that, so I guess I'm getting a little 'radical' here.

The problem is that we chiropractors don't have a massive marketing machine like the pharmaceutical companies have. Do you know that the drug industry is one of the biggest industries in this country? Yet, when it comes to our nation's overall health, we fall way short. Why is that?

Well, it's my belief that drugs aren't always the answer. Chiropractors understand that health is an "inside-out" process. That's why I'm so proud of our success rate.

My name is Dr. Drew Czerminski. I've been at this for seventeen years, and the results still amaze me! No drugs, no

surgery. It may seem like a miracle, but it makes sense. Chiropractors relieve nerve pressure, and the body responds by healing itself. It's very simple.

If you are looking for a different approach to health, then come see us.

You've probably seen our clinic, Back To Health Chiropractic. It's the one on Toepperwein Road, next to the Dollar General. When you come in for your appointment, we'll go over your information, and do whatever tests need to be done, even x-rays, for just \$27. That lasts until Dec 31, 2012. My job is to get you better as fast and completely as I can. It's my passion. We don't want to just get you out of pain, we want to fix the cause of the problem so it doesn't affect you years down the road. Feel free to call us at 210-599-9570.

Thanks and God bless.
Dr. Drew Czerminski, D.C.
